

# Beauty Advisor > POS retail – store management

## / Getting started

The **POS retail** section in the **Beauty Advisor** module contains a table with all POS stores, susceptible to sorting, with the possibility of editing stores, viewing and adding new stores.

### Remember

POS stores - retail outlets, created in the administration panel. Shops can be added individually (it is possible from the POS retail tab) and imported in groups from external files. For information on importing, see [Beauty Advisor - mass imports](#).

The screenshot displays the 'Beauty Advisor' module interface. The top header includes the Yves Rocher logo, user name 'YRPL UAT', session end time '29min 45s', and a 'GAC' button. The sidebar on the left contains navigation options like 'General', 'Contacts', 'Orders / list', 'Pending orders', 'New order', 'POS retail', 'Catalog', 'Promotions', 'Customers', 'Orders', 'Reports', 'CMS', 'Import/Export', 'System', 'POS', 'Titles', 'Structure', 'Campaigns', and 'Herbarium'. The main content area is titled 'POS retail' and features a table with 10 entries. The table columns are: ID, POS number, Company, Shop name, Street, City, Postal code, Phone, E-mail, and Actions. Each row includes 'Edit' and 'Show' icons. The table shows the following data:

ID	POS number	Company	Shop name	Street	City	Postal code	Phone	E-mail	Actions
36	0104	Yves Rocher Polska	Sklep 0104 - Kraków Czyżyny	Medweckiego 2	Kraków	31-870	885442272	pl0104@yrvpm.pl	<a href="#">Edit</a> <a href="#">Show</a>

Beauty Advisor / POS retail tab in the POS retail section

- **(1) Show X entries** - option to change the number of stores displayed on one page (available range from 10 to 100).
- **(2)** - table with information about stores. You can sort the data by the contents of any column:
  - **ID** - unique store **ID** in the administration panel. The parameter is generated automatically by the application.
  - **POS number** - a unique store number in the administration panel. The number can consist of any characters, of unlimited length. The parameter is editable from the administration panel and overwritten during mass import of POS stores. For more

information on importing, see [Beauty Advisor - mass imports](#).

- **Company** - the name of the company which the store is a part of.
- **Shop name** - Name of the store. Usually, it also contains store number.
- **Street** - The street name on which the store is located at.
- **City** - City name where the store is located at.
- **Postal code** - Store's postal number.
- **Phone** - Store's mobile number.
- **E-mail** - Store's e-mail address.
- **Actions**
  - **Edit** - select the button to edit the data of the selected store.
  - **Show** - Select to preview information about the selected store.
