

# Cart synchronization across devices

## / Getting started

In this article, you can find information about cart synchronization across devices functionality. This change allows you to add the selected products and a discount code to the cart from the URL. Products and a discount code need to exist, and be properly configured in the admin panel - if they are not, they won't be added.

### Remember

You can find more about products in the [Product management](#) article.

### Remember

You can find more about discount codes and the promotion module in the [Promotion module introduction](#) article.

Table of contents:

1. [Structure of the URL](#)
- 

## / Structure of the URL

This functionality adds the **/restore/** function into the cart URL with the following parameters:

- **skus** - Adds the selected SKUs to the cart. There can be multiple SKUs separated by commas. Only quantity of 1 of the selected products will be added if the amount of products is not specified in brackets (e.g. **39959(3)** will add 3 times 39959). If the

selected product already exists in the cart its quantity won't increase. Gifts can be added to the cart this way. Example: [https://pluat-](https://pluat-v6.yr.tauceti.tech/cart/restore/skus/39959(2),55665)

[v6.yr.tauceti.tech/cart/restore/skus/39959\(2\),55665](https://pluat-v6.yr.tauceti.tech/cart/restore/skus/39959(2),55665)

- **code** - Adds the selected main discount code to the cart. The discount code has to exist and be used by a promotion. Example: [https://pluat-](https://pluat-v6.yr.tauceti.tech/cart/restore/code/TEST123)

[v6.yr.tauceti.tech/cart/restore/code/TEST123](https://pluat-v6.yr.tauceti.tech/cart/restore/code/TEST123)

- **clear** - Removes all of the products from the cart that are not present in the same **skus** parameter. It's a bool, so **1** removes the products. Example: [pluat-](https://pluat-v6.yr.tauceti.tech/cart/clear/1)

[v6.yr.tauceti.tech/cart/clear/1](https://pluat-v6.yr.tauceti.tech/cart/clear/1)

Both of these options can be used simultaneously, which would result in adding the selected products and discount code to the cart.

Example:

[https://pluat-v6.yr.tauceti.tech/cart/restore/skus/99291\(4\),30132/code/TEST123/clear/1](https://pluat-v6.yr.tauceti.tech/cart/restore/skus/99291(4),30132/code/TEST123/clear/1)
