

# Opensets

## / Getting started

This article describes openset promotion functionality, which allows users to create a web page with set of products, where the customer is able to select desired products from the list, and add them to the cart as a set.

We distinguish three types of opensets - “Normal”, “DIY” and “DIY catalog price”, which are described in the following chapters.

**YVES ROCHER**

# / Creating an Openset

In order to create an Openset, in the administration panel navigate to the **Admin panel > Promotions > Opensets / list** section and click **Add** button **(1)**, that will redirect you to the Openset creation page.

The screenshot displays the 'Opensets / list' interface. At the top right, there is a '+ Add' button circled with a '1'. Below the header, there is a search bar and a 'Show 10 entries' dropdown. The main content is a table with the following columns: ID, SKU, Name, Price, Is active?, Start date, End date, and Actions. The table contains 12 rows of data. At the bottom, there is a pagination control showing 'Showing 1 to 10 of 12 entries' and navigation buttons for 'Previous', '1', '2', and 'Next'.

ID	SKU	Name	Price	Is active?	Start date	End date	Actions
12	OS1649423392	Ekspertkie zestawy do pielęgnacji włosów tylko za 34,90zł	34.90	✓	2022-04-08 15:14:20	2022-05-23 00:00:00	<a href="#">Edit</a> <a href="#">View</a> <a href="#">Delete</a>

# Creating a normal openset (tab “General”)

Below you will find a description of all parameters needed to create an Openset.

The screenshot shows a form titled "General" for creating a normal openset. The form contains the following fields and controls:

- SKU \***: OS1510905770
- Name \***: 5 produktów z opakowaniem za 59,90
- Friendly URL**: /dyl\_swiateczny\_zestaw\_z\_5\_produkow
- Type \***: Normal ...
- Price \***: 59.99
- Products number \***: 5
- Allow to choose single product quantity**: OFF
- Products SKU list \***: 74289,72489,82490,81205,76070,78683,48090,24016,24141,24744
- Cart minimum value**: (empty)
- Start date \***: 2020-11-04 00:00
- End date**: 2021-12-25 00:00
- Is active?**: ON

At the bottom of the form, there are "Save" and "Cancel" buttons.

*Visualization of the normal openset creation.*

- **SKU** - automatically generated unique openset product code.

- **Name** - displayed name of the openset. The value is displayed on the e-commerce platform for the customer.
- **Friendly URL** - URL address where openset is located.
- **Type** - type of openset.
- **Price** - Target price for the created set. The superior prices of products placed in the openset (**Products SKU list** field) are not taken into account.
- **Products number** - number of products you can choose from the available list (**Products SKU list** field). After selecting 3 products, you will receive a popup with the possibility of adding the chosen set to the cart.
- **Allow to choose single product quantity** - A switch that enables customers to select more units than 1 of the same product, instead of the need to select different products.
- **Products SKU list** - list of products (SKU product code). Must be separated by comma.
- **Cart minimum value** - archive field, currently not used.
- **Start date** - date from which the openset will be visible on the e-commerce platform.
- **End date** - date from which openset will not be visible on the e-commerce platform.
- **Is active** - a switch that determines whether the openset is active or not on the e-commerce platform.

After filling in all the above parameters, select **Save** button to save the changes or **Cancel** button to cancel adding an Openset.

### Remember

In order for the element to be fully activated and visible on the e-commerce platform, remember to activate the openset in the Altshops module.

Below you'll find the visualization of normal openset on the e-shop website.

**Dodaj do koszyka trzy swoje ulubione żele a krem do rąk otrzymasz za 1 grosz.**

Visualization of the normal openset on desktop

Visualization of the normal openset on mobile

## Creating a normal openset (tab “CMS blocks”)

CMS Blocks tab allows us to see header CMS blocks (automatically created by the application) that will be used by the openset.

CMS block is required to have openset ID in its name, for example:

***openset / header / 47 (where 47 is openset ID)***

We can press “**add**” button, which will create a new CMS block for us with the appropriate block name.

Search button will search the CMS blocks in order to find blocks that meet the required name (openset / header / ID). Mobile openset header is no longer used as the website is in a responsive design, so desktop and mobile headers should be located in the **openset / header / ID** CMS block

CMS blocks		
Title	Description	Actions
openset / header / 2	Openset header (up to 1248px width)	+ Add Search [1]
mobile / openset / header / 2	Mobile openset header (up to 1248px width)	+ Add Search [1]

Visualization of the CMS blocks tab

### **i Remember**

The header of the openset cannot be wider than 1248px.

Section CMS block is the same for Normal as well as DIY opensets. And it looks as in the example displayed below **(1)**.

The screenshot shows the Yves Rocher website header with a green navigation bar. Below the header is a promotional banner for a DIY kit. The banner features three bottles of Yves Rocher products (two pink, one purple) and a tube of cream. The text on the banner reads: "Dodaj do koszyka trzy swoje ulubione żele a krem do rąk otrzymasz za 1 grosz." and "Stwórz swój zestaw z gamy Plaisirs Nature I ODBIERZ KREM DO RĄK GRATIS". A circled number "1" is placed to the right of the banner.

Visualization of the openset CMS block

# Creating a DIY or DIY catalog prices openset

The process of creating a DIY opener is identical to a [Normal type openset](#). The only differences between normal and DIY sets are:

- **Type** field, where we have to indicate **DIY** or **DIY catalog prices** openset.
- **Product SKU list** construction where we have a JSON record.
- Product price value indicated in the JSON is superior value in relation to **Price**. In case of **DIY catalog prices** openset the price value takes the catalog prices of the product instead of promotion prices.
- **Products number** - means the number of steps of which openset DIY is composed of.

The image shows a 'General' configuration form for a product. The fields and their values are as follows:

Field	Value
SKU *	OS1527514308
Name *	Mini zestaw z gamy plaisirs nature
Friendly URL	/mini_zestaw_z_gamy_plaisirs_nature
Type *	DIY Offer
Price *	22.90
Products number *	3
