

General information

/ Getting started

Zendesk is a service that gives access to various support tools, in this case, a Knowledge base. Our knowledge base is a searchable directory of content and documentation regarding the Tau Ceti admin panel, its functionalities, and integrations. The Knowledge base can be accessed through the <https://tauceti.zendesk.com/hc/en-us> link.

You can also create an account, which can be used to publicly comment on the articles and get information when they get updated by following them.

On the home page of the Tau Ceti Zendesk knowledge base, you can find:

(1)- Search bar, which allows you to search in our library of documentation. You can search here only by the article's name.

(2)- Categories, where the articles are located. You can find more in the [Articles overview](#) section.

(3)- Recent activity, which shows which documentation got updated recently.

(4)- Submit a request button, which allows you to contact us in case of questions or suggestions. You can find more about this topic in the [Contacting Tau Ceti](#) section.

(5)- Sign-in button, which allows users to create an account and sign in to it. You can find more about creating an account in the [Creating a Zendesk account](#) section.
